<tbody>
<tr>
<td>SOAR-10161</td>
<td>If you receive email notifications for health alerts, you incorrectly received an email notification that incident email was not running, even if you never configured incident email. Now, the alert checks if incident email is configured before sending an email notification.</td>
</tr>
<tr>
<td>SOAR-11802</td>
<td>If a log contained special characters, you couldn’t create an incident for it because a regular expression function interpreted the characters in a way that threw an exception. This function has been modified so it replaces the special characters.</td>
</tr>
</tbody>
